

10 043 366

336, Sterba Lane

Prescott AZ 86305

Oct 19 07

U.S. Patent & Trademark Office.

I wish to
state my support of the request
by the American Anti- Vivisection
Society for the Reexamination of
Patent No 6,924,413.

The majority of
citizens in the United States are against
animal cruelty and the patenting of all
kinds of animals only increases that
cruelty. They are living feeling beings
not something like Teflon or a ball-point
pen. They are not "things". I am sure
many others join me feeling as I do & I
hope they & I can make a difference.

Sincerely

Pat Joralemon
